

Vacotron 460

Suction module:
A valuable addition
to the Endomed 482
or Sonopuls 492

Vacotron 460

The Vacotron 460 is a module for the 4 series. You can apply electrotherapy by using vacuum electrodes with this suction module. This is accomplished fast and simple. Positioning electrodes could not be any easier.

The Vacotron 460 is a valuable addition to the electrotherapy devices of the 4 series.

- Can be connected to all the electrotherapy and combination units of the 4-series
- Quick application of vacuum electrodes on positions where fixation straps cannot be used
- Continuous and intermittent suction
- Accurate adjustment of the suction strength
- Unique cable connection for fast application of rubber electrodes

The Vacotron 460 can only be used in combination with the Sonopuls 492 or the Endomed 482.
